

ELITE CORE

WIRED BODY PACK WITH VOLUME CONTROL

USER MANUAL

THIS IS NOT A HEADPHONE AMPLIFICATION DEVICE.
IT IS A PASSIVE EXTENSION PACK WITH A VOLUME ATTENUATOR.

The Elite Core Wired Body Pack with for Headphone Extension is an ultra-durable 3.5MM to XLR adapter that features a passive volume control knob and a heavy-duty belt clip for use with the EC-PRO-HEX 10' or 18' headphone extension cable.

TO USE THIS DEVICE:

Insert an 3 Pin, XLR cable from your audio source into the 3 pin connector on the bottom of the Body Pack.

Next, plug in your headphones or In Ear Monitors to the 3.5mm port located on the top of the unit.

Adjust the volume of the audio with the volume control located at the top of the unit.

NOTE: This is a PASSIVE extention body pack with a volume attenuator. This is not a headphone amplification device. While it will function, using this product without a headphone amplifier will result in a decreased volume level that may be too low for most applications.
